**Notes**

1. In the published results, pupils are listed with only an initial rather than a full first name and without their school. It has been possible to find some first names and schools from other results and these are listed in red.
2. If anyone who sees these results can add to the information, it would be much appreciated if they could contact Pete Morris – either on 029 20891248 or on [pmorris46@aol.com](mailto:pmorris46@aol.com). Many of the pupils, who competed, are still alive and possibly will have memories of the event. It was the only time that the Builth course has been used for this event to date.

Results of the 'Milk in Action' 1981 National Cross-Country Championships – Held at Bwlth Wells on Saturday, March 21<sup>st</sup>, 1981

Although there are full results and an in-house programme in the Welsh Schools' archive but there is no copy of the course map nor is there a report from Dai Phillips, the Welsh Schools' Cross-Country Secretary.

These are Dai's brief comments:

'Regrettably the atrocious weather conditions made it very difficult for the Championships to proceed as we would have wished, and I was very impressed with the patience and understanding shown by most people when it was evident that they are having a miserable time. Organising the event on a Saturday poses many problems particularly when the event is not attached to a school. However, the support that we had from the staff at Llandrindod High School was excellent, and we are very grateful to them for giving up their time to assist. Had the day been a pleasant one, I am sure that the championships would have been a spectacle but, for many reasons, a great deal of thought will have to be made regarding the suitability of this venue for future championships.

The trophies and winning certificates will be given to representatives of the winning counties at the SIAB Schools' international at Swansea in two weeks-time.'

The maximum number of finishers in each race is 64. The potential maximum number of finishers is (8 x 8 x 6) = 384.

The maximum size of any county team is (8 x 6) = 48

Unusually, there are five positions in the senior boys' race and one in the middle boys' race where the name, school and county of the athlete is not known.
